

As a citizen of the United States who has resided in the State of Indiana for all 58 years of my life with the exception of 4 years in the Marine Corps I respectfully request that you do not alter in anyway nor delete Indiana's no call list. As I understand it a list of Banks are requesting you to take them off of Indiana's no call list.

The Federal government should wonder why they would want to be taken off of Indiana's law and come under federal law. The answer is quite simple, your law is not as restrictive.

Indiana's law works extremely well. It is one of the few things the government has gotten right. Don't vote for this or alter Indiana's law in anyway. We need more and stronger laws like Indiana's to protect our citizens from being harassed by telemarketers and large corporations who promote this kind of conduct.

Leave Indiana's law alone and concentrate your efforts on making the federal law stronger to discourage these and other tactics.

Respectfully,

Frank K. Hancock Jr.
